

OUR MISSION

To further the effectiveness and efficiency of the Department by identifying the concerns of its professional staff employees, developing solutions to those concerns, and presenting those concerns and proposed solutions to the Executive Planning Council for their consideration.

To serve as an informational resource to professional staff civilian personnel.

Who We Are

The Civilian Advisory Committee is composed of a facilitator and two representatives from each Division.

Committee members are required to meet with the professional staff in their respective divisions to discuss civilian issues and concerns.

Committee members also meet with their Division Chiefs on a quarterly basis and attend their division staff meetings.

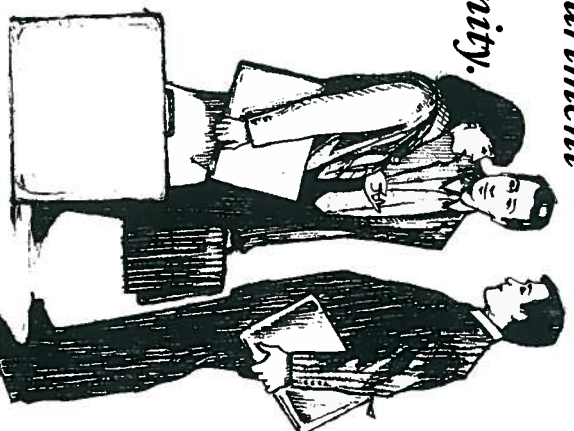

The Civilian Advisory Committee meets monthly to discuss the results of these meetings and any changes within the Department.

Professional staff representatives and alternates are chosen by each Chief. The standard term for a Civilian Advisory Committee member is three years.

What We Do For You

We take your questions and concerns about career paths, training, professional development, and work situations to the appropriate authority to resolve or answer it. We are your voice to the executive offices. We give presentations to new employees during their orientation program.

We encourage professional staff to pursue their training and education from within the Department and the community.
